

Waste Electrical & Electronic Equipment (WEEE) Policy

Total Connections 2009 Ltd recognizes its responsibilities and obligations in support of, and compliance with, the European Union Directives on Waste, Electrical and Electronic Equipment (WEEE).

These regulations require that, when disposing of electrical and electronic equipment at the end of its useful life, it must be recycled and/or disposed of in accordance with the directive.

We are committed to take back waste electronic equipment when it has reached 'end of life'. Please contact us for details.
